➤ **Horoscope Rectification**

Too often people still don't know exactly at what time they are born. Needless to say that any astrological profile, report or prediction that is based on an incorrect time of birth is wrong or worthless.

If you don't know your birth time, you even cannot order your free Lunar Cycle Fertility Overview!

However, astrology has some tools that can help to rectify your time of birth. We can rectify your birth time. To do that we will need at least three of your most important life events (your milestones). The more (important!) life events you can provide, the better for the accuracy of your birth time.
